## **DECLARATION OF COMPLIANCE - EUDR**

Under the EUDR regulation, it is prohibited to place or make available on the EU market, or to export from the EU palm oil, soya, wood, cocoa, coffee, cattle and rubber (or products derived from these commodities including, among others, chocolate, beef, leather, furniture and printed paper) unless they meet the following criteria:

### **Deforestation and Forest Degradation-Free Compliance with Country Legislation Supported by a Due Diligence Statement**

The Imago Group is aware of the EU Deforestation Regulation (EUDR) requirements and understands the aims of the regulation to create a deforestation-free supply chain.

EUDR imposes requirements on Operators and Traders, such as due diligence and risk assessments as well as ensuring the information flow through the value chain. To align with the EUDR, The Imago Group is working to ensure we meet all regulatory requirements, within the required timeframes, subject to the delivery of the final instructions by the EU Commission.

The Imago Group understands its responsibilities as part of the supply chain which primarily involve ensuring that the paper we source is deforestation free. The Imago Group is committed to working collaboratively with its customers to ensure we collect the required information and make it available in order that our customers can, in turn, perform their due diligence obligations as Operators and Traders.

The Imago Group has compiled, to the best of our knowledge [some FAQs](#) which you may find useful to refer to. Considering however, that the Imago Group does not place goods directly on the EU market and does not know where the goods we supply will ultimately be sold, we recommend our customers seek guidance from the EU directly to fully understand the impact of the regulation on their specific business operations.
