

SPECIAL EFFECTS INKS

THE COMPLETE GUIDE FOR PRINT PRODUCTION

Innovative inks and finishes that transform print into experience.

WHAT ARE SPECIAL EFFECTS INKS?

Special effects ink are advanced formulations that go beyond colour creating visual, interactive, sensory, and functional experiences that stand out.

GLOW IN THE DARK

BRILLIANT NEON COLOURS

HEAT, LIGHT & WATER REACTIVE

REVEAL HIDDEN MESSAGES

ADD SECURITY & AUTHENTICITY

RELEASE FRAGRANCES

CREATE WRITEABLE SURFACES

CONDUCT ELECTRICITY

REACT TO MAGNETISM

POPULAR SPECIAL EFFECTS

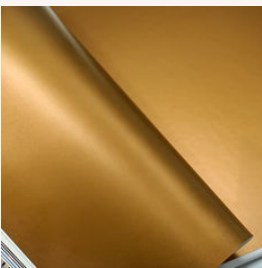

GLOW IN THE DARK

Phosphorescent Inks absorb light and glow for hours in darkness.

NEON PMS INK

Fluorescent colours that glow in daylight and under UV light.

METALLIC INK

Containing real metal particles for a reflective, shimmering finish.

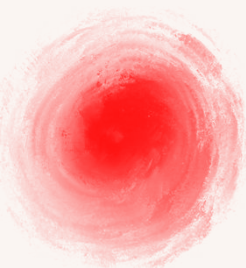

UV REACTIVE

Invisible in normal light, visible under UV light.

SCRATCH-OFF

Conceal content with a durable coating that reveals what's underneath.

THERMOCHROMIC

Colours change with temperature for interactive effects.

COMPLIANCE & SAFETY

EN 71-3 Element migration limits. Bath books & any product likely to be mouthed.

EN 71-1 Mechanical & physical safety. Magnetic products with separable small pieces.

EN 62115 Electric toy safety. Conductive ink products with electronic components.

REACH EU & UK chemical regulation. Request full SVHC declaration for all inks.

IFRA International fragrance standards.

PRODUCTION TIPS & BEST PRACTICES

1. Start with white. Dark substrates kill glow and mask reveals. When in doubt, add a white underprint.
2. Cold lamination only. Heat permanently destroys thermochromic and glow chemistry.
3. Design both states. Every reactive ink has a before and after – brief and proof both.
4. Brief early. Effects need extra stages and compliance testing. Add them on day one!

OUR PRODUCTION PROCESS

CONSULT

We take time to understand your objectives, audience and requirements.

RECOMMEND

We understand and recommend the right specs.

DEVELOP

Prototypes, samples and proofread quality and feasibility.

MANUFACTURE

Precision production that is certified global partner network.

DELIVER

Reliable logistics and on-time delivery, every time.
